Subject: Tony Williams

I have a copy of Tony Williams' promotion to EC II. The first page of the eval really needs a little more information. "Hit EC I's numbers" would get us into trouble with the Department of Education when they audit the personnel files. Could you redo another first page, email it to me and I'll hold it for the original paperwork. Thanks, Ron.

Importance: High

Ron, I just received Linda's PAF and evaluation. We can't mention starts or enrollments or any conversion to starts in an evaluation. Would you please redo the first page and send it to me. If you give me your fax number, I'll send you some examples of how this needs to be filled out.

Brian, I just received a copy of Susan's salary review. On the first page of the eval, you refer to starts. That's a no-no. You'll need to redo the first page. If you no longer have it, then go into My Management Toolbox and fill out the first page of an evaluation and email it to me. Then I'll hold it until the original arrives.

Use the Job Performance, Communication, etc. categories on P 2&3 for the goals and list comments on her performance in each category. Also, you didn't indicate what her overall evaluation is. If you give me your fax number, I can send you some examples.

Yes. Everything's ok as long as they don't refer to starts.

Application needed is what it stands for, is this OK?

What are the letters APND an acronym for? It if refers to apps, then yes you can use it.

Subject: Discussion Memos

Jessica, I have several discussion memos that you have written. Don't forget that you can include enrollments on these. The only time they can't be included is when you're doing an evaluation that affects salary. Discussion memos and written warnings can and should include start numbers.
