

Report of Contact Opening HK Bank Account at China Merchants Bank,

Dinner with Ada and USANA Lecture, June 28th, 2012

(The following is audio documented)

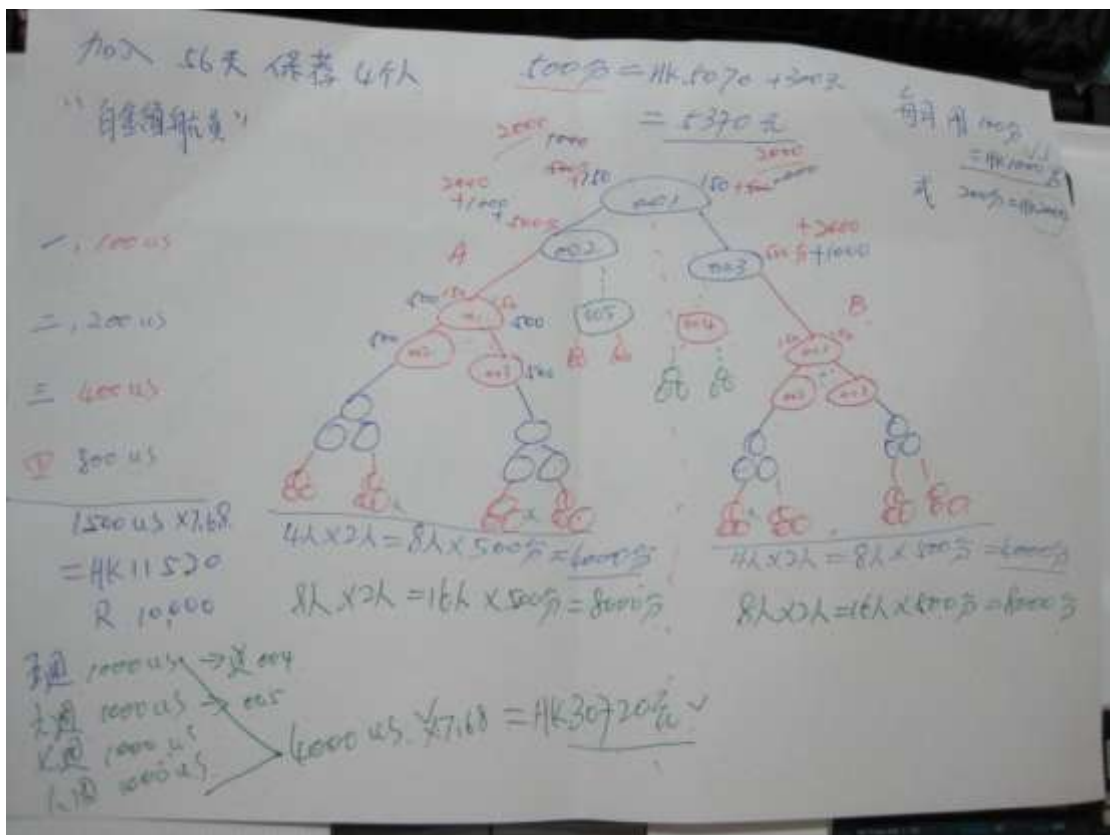

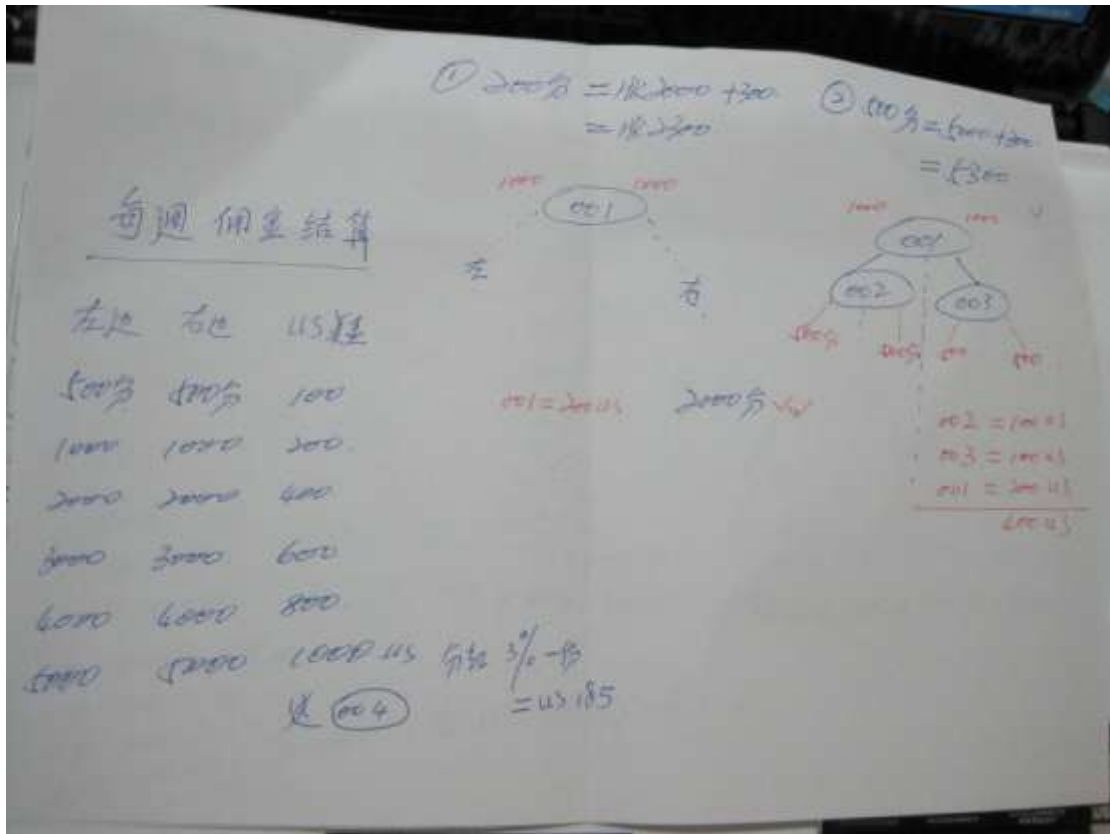

Our contact met Ada at the China Merchants Bank to open an account, which will be used for conducting Usana business.

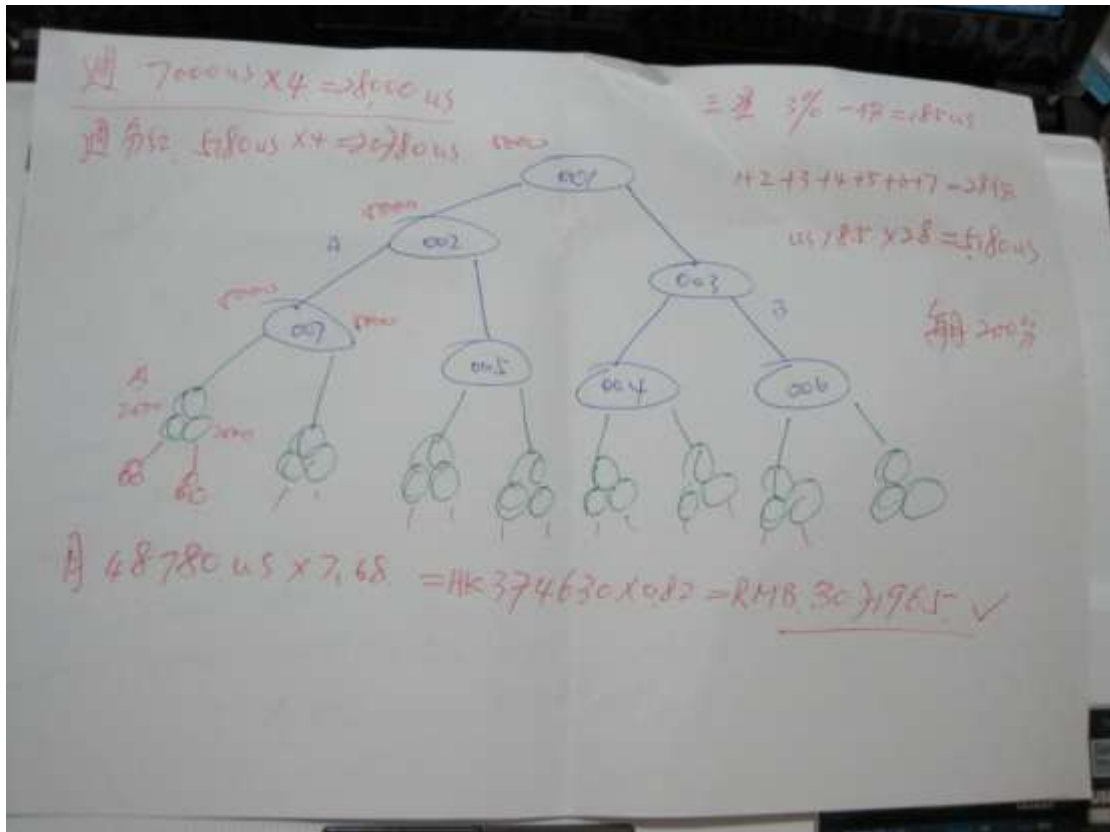

This is our contact's receipt of opening an account.

Then Ada took our contact to the USANA Causeway Bay office so she could sign the Auto-Pay/ Auto-Deposit papers. While at this location, Ada also explained the payment system to our contact again. Ada then drew for our contact several diagrams to further explain to her the payment system.

The following is a diagram of the payment system drew by Ada, It looks like a pyramid.

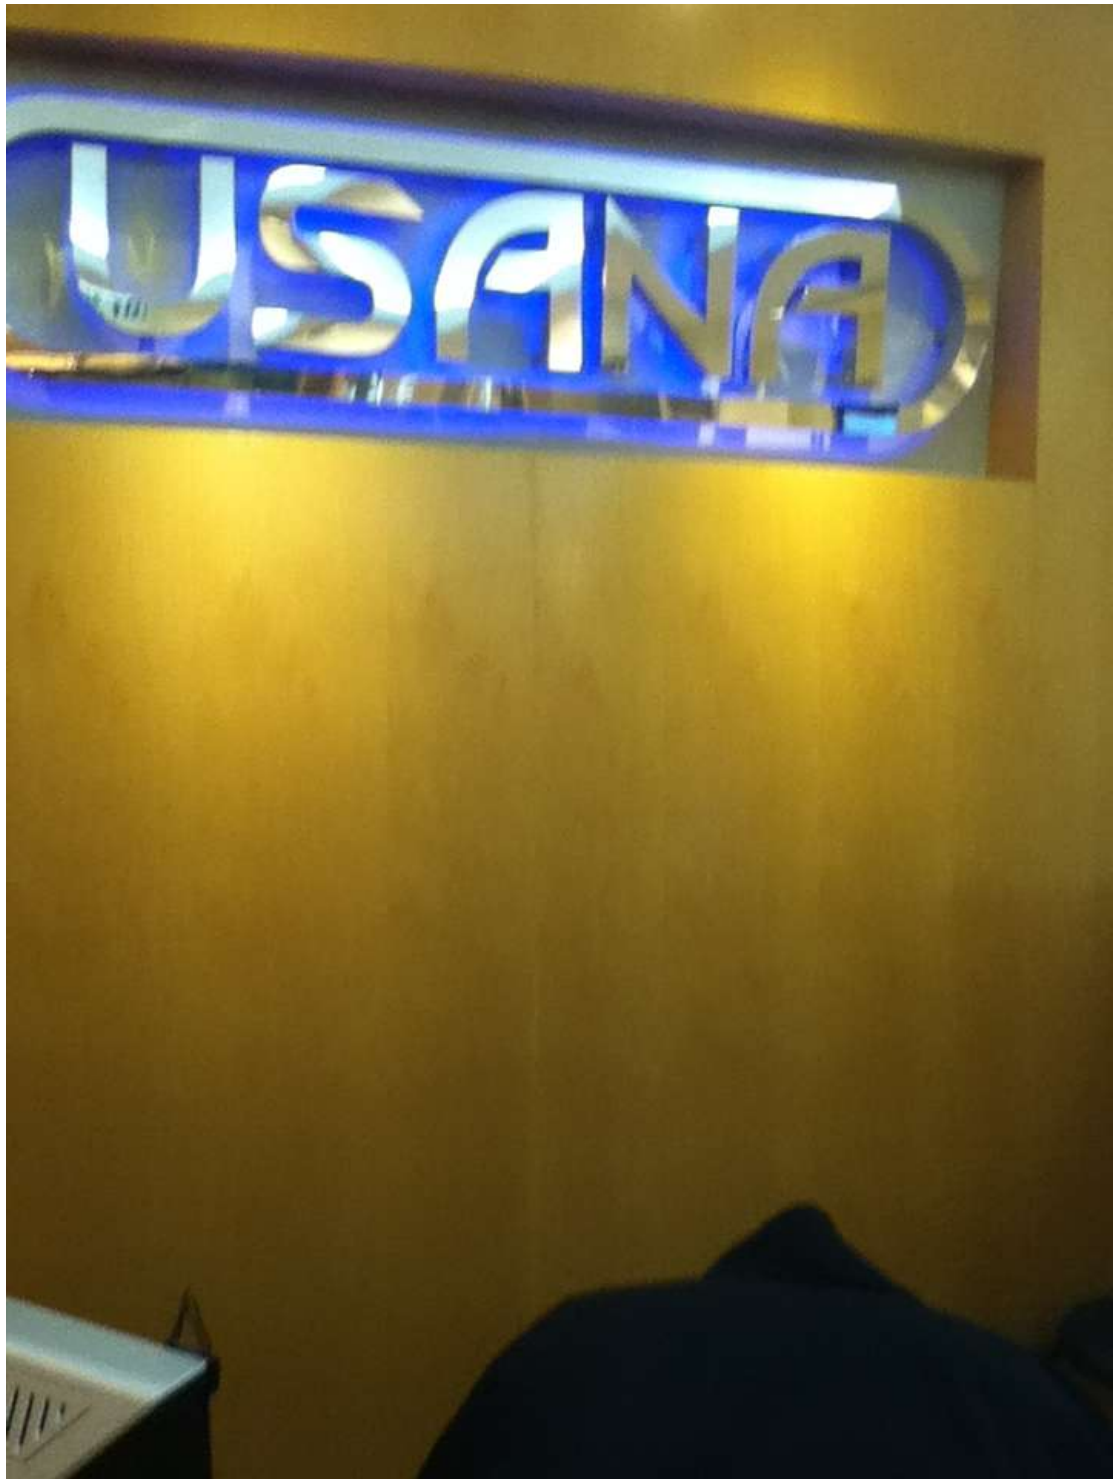

After they left the office, Ada treated our contact to dinner along with another Usana distributor who sells in Shenzhen; she has been a USANA distributor for around a year.

After dinner, the three of them went to a Usana lecture. The entire lecture was in Cantonese. Our contact left after 15 minutes because she doesn't understand the language. The name of the lecture was "health and freedom". We have an audio recording of the meeting.

Below are some pictures of the Causeway Bay location
