Let's bring it home! Be sure you scrub all schedules, identify cases on Thursday and Friday that can be moved up, and if all else fails Larry is going to take one for the team. Turn over every stone possible. I know there are 2 out there!

Guys- It's time to call in favors for these last 2 cases. Mike found one today as did Chelsea which means we only need 2. We need to start calling our surgical champions who know our business first thing tomorrow. Please keep me updated as all of you are still scrubbing schedules and talking to your facilities. We just need 2 and I know that this group can pull it off! I'll be touching base in the morning, and thank you in advance for your efforts.

Sincerely,  
Adam
